OB ultrasound/family member, children, visitor policy

Family members, visitors and children are not allowed in the ultrasound exam room during the exam. Family members, visitors and children may be permitted into the exam room to view the baby(s) once the exam is complete, depending on exam circumstances.

At no time can photos or video be taken of the patient, monitor and/or sonographer. Photos will be provided, depending upon exam circumstances. If at the time of exam photos can't be provided, only with the sonographer's permission will photos be allowed of the monitor.

The sonographer is unable to provide any information on the exam findings and/or results. The patient will receive all results from their provider.
